ELSTON 1988

*Elston derives its name from the village near Newark in Nottinghamshire where Elston Hall is renowned as the ancestral home of the Darwins of the noted 'Theory of Evolution.'
The nyvern symbol of the village also appears on the label.*

1988 Elston Chardonnay is a chardonnay of positive lemon-gold colour with an aroma showing grapefruit and butterscotch characters.

This is a wine which will develop markedly over the next 2 – 4 years, in common with its predecessors.
